Agile Development Practices Explained

ORLANDO
FLORIDA
AUGUST 7-11

AGILE2017

Hello!

I am Scott Densmore

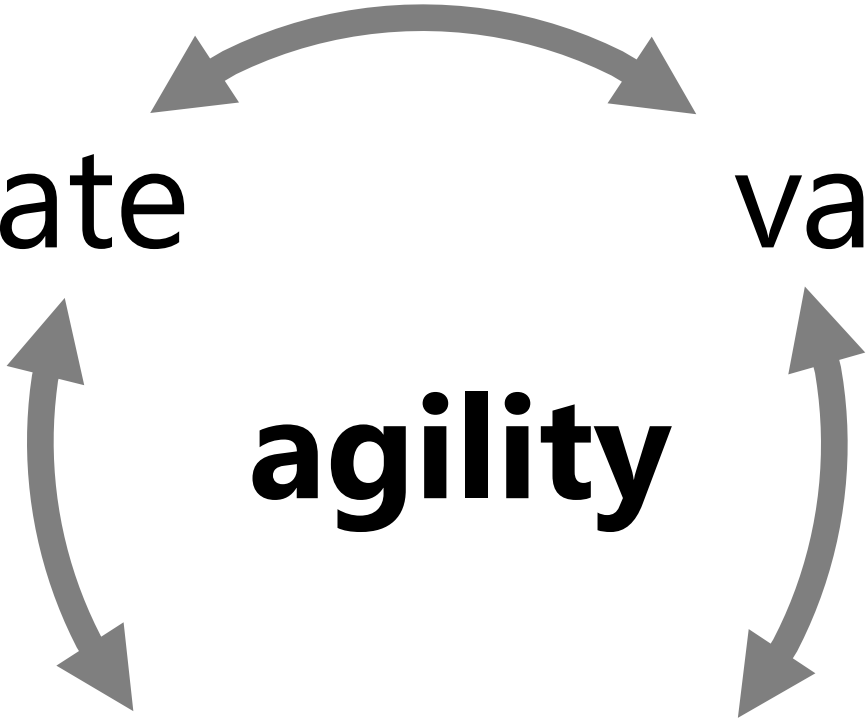

You can find me at [@scottdensmore](https://twitter.com/scottdensmore)

climate

values

agility

practices

climate

Culture is a critical performance factor and this book describes how to assess and improve the culture.

STAGE 1

- Members are hostile
- Life is hopeless and unfair

STAGE 2

- Members are passively antagonistic, sarcastic, and resistant to new initiatives
- The boss or system is holding them back

STAGE 3

- Marked by knowledge hoarders who want to outwork/outthink their competitors on an individual basis
- They are lone warriors who not only want to win, but need to be the best and brightest
- Self-Perception is that they are doing all the work

STAGE 4

- Members are excited to work together for the benefit of the entire company
- Shared Values
- Members hold each other accountable

STAGE 5

- Members have made substantial innovations
- Members seek to use their potential on a history making project

values

SHARED VALUES

MICROSOFT VALUES

- Integrity and Honesty
- Big Challenges
- Accountability
- Passion
- Open and Respectful
- Strive for Excellence

MY VALUES

- Feedback
- Transparency
- Accountability
- Consistency
- Minimalism

Values = Why

Practices = How

practices

**Raising
the
Professional Bar**

RUTHLESS PRIORITIZATION (PLANNING)

- Prioritized Backlog
- Constant Grooming

Being able to solve problems is nowhere near as important as being able to pick the right problem to solve.

DESIGN (UX / INTERACTION)

- Provides Cohesion
- Improves Usability
- Consistency

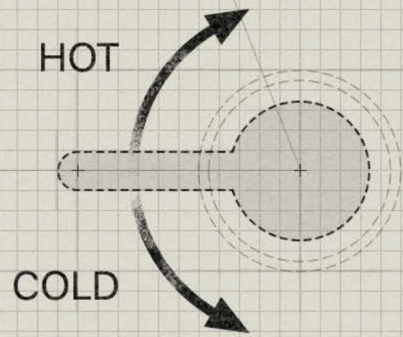

Hot

Cold

USER STORIES

- Short
- Clear Goal
- Clear Exit Criteria

ESTIMATION RELATIVE SIZING

- Humans are great at relative comparison
- Humans stink at absolute estimation
- Less temptation to do "1 point = x hours"

SPIKE

- Familiarize the team with new software
- Determine Work
- Time Boxed
- Clear Goal

BUGS

- Treat like User Stories
- Now
- Next
- Never

SPRINTS

- Focused
- Sustainable
- Planned
- Measured

Ready for Work

[Bug] - RHEL7 - zip application needs to be installed on the template and replicated to all nodes

80/20 RULE

- 80 % of value comes from 20% of the features

DAILY STANDUP

- Focus around the work
- Help members finish tasks
- Hold each other accountable

CONTINUOUS INTEGRATION / DELIVERY

- Fast builds
- Easy Check-ins
- Real-time Code Reviews
- Easy Deployments
- Easy Rollback

A lot of time progressive disclosure comes down to the 80/20 rule

CONTINUOUS INTEGRATION / DELIVERY

- Fast builds
- Easy Check-ins
- Real-time Code Reviews
- Easy Deployments
- Easy Rollback

RETROSPECTIVE

- Self Reflect
- Change things that are not working
- Keep things that are working

The background is an abstract composition of wavy, horizontal lines in various shades of green and yellow. The lines are dense and layered, creating a sense of depth and movement. In the lower right quadrant, there is a distinct fingerprint-like pattern, suggesting a connection to identity or data. The overall color palette is vibrant and natural, evoking a sense of growth and energy.
